Professional Summary

I am a Computer Science Engineering student with a good foundation in Java, Data Structures, and Web Development. I enjoy solving problems, learning new technologies, and building my technical skills through hands-on practice. I am looking for an opportunity where I can apply what I have learned, work on real-world projects, and grow as a software developer while contributing to the team.

Technical Skills

- Languages : Java , python , c programming ,SQL
- Web technologies : HTML5, CSS3 , JavaScript ,DOM
